The Harvard Schools Trust  
P.O. Box 450  
Harvard, MA 01451

Dear Directors:

We are writing to thank the Harvard Schools Trust for their generous grant which allowed us to purchase a graphing calculator package. The package has just arrived and is already in use in our classrooms! The package included a set of thirty graphing calculators, a view screen panel and accompanying view screen calculator, and a variety of guidebooks. These graphing calculators, which are actually hand-held computers, will be used in a variety of Mathematics classes at The Bromfield School in grades seven through twelve. Bromfield students who are exposed to the use of graphing calculators will be better able to solve real-life problems which require analysis which cannot be completed easily by hand or with the use of regular scientific calculators. We are truly grateful for the financial support shown to us by the Harvard Schools Trust. As requested by Donna Solod, we have also thanked you by means of a letter to the editor in the Harvard Post.

The Bromfield School Mathematics Department
