

December 5, 2006

Louise,

Please thank the board members of the Harvard Schools Trust for their continuing support of Market Math Night for the 4th and 5th graders at HES. The program continues to be a well-received, fun night of exposure to real life math problems. This year included a problem that resulted in a voluntary donation to Loaves and Fishes (less than \$3 per child). We took over 20 bags of groceries to the food pantry after Market Math Night.

Sincerely,

Stephanie Opalka
